

The Movement Control

or

How to move your avatar..

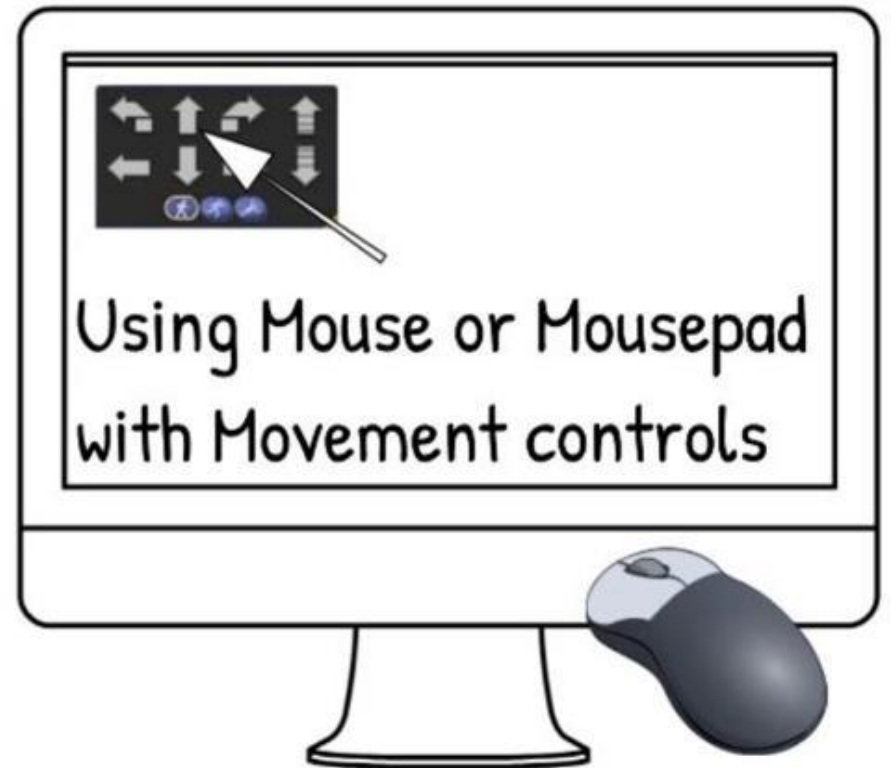

Two easy ways to move your avatar:

Method 1:

Using your Keyboard

Method 2:

Using Mouse or Mousepad
with Movement controls

Using your keyboard

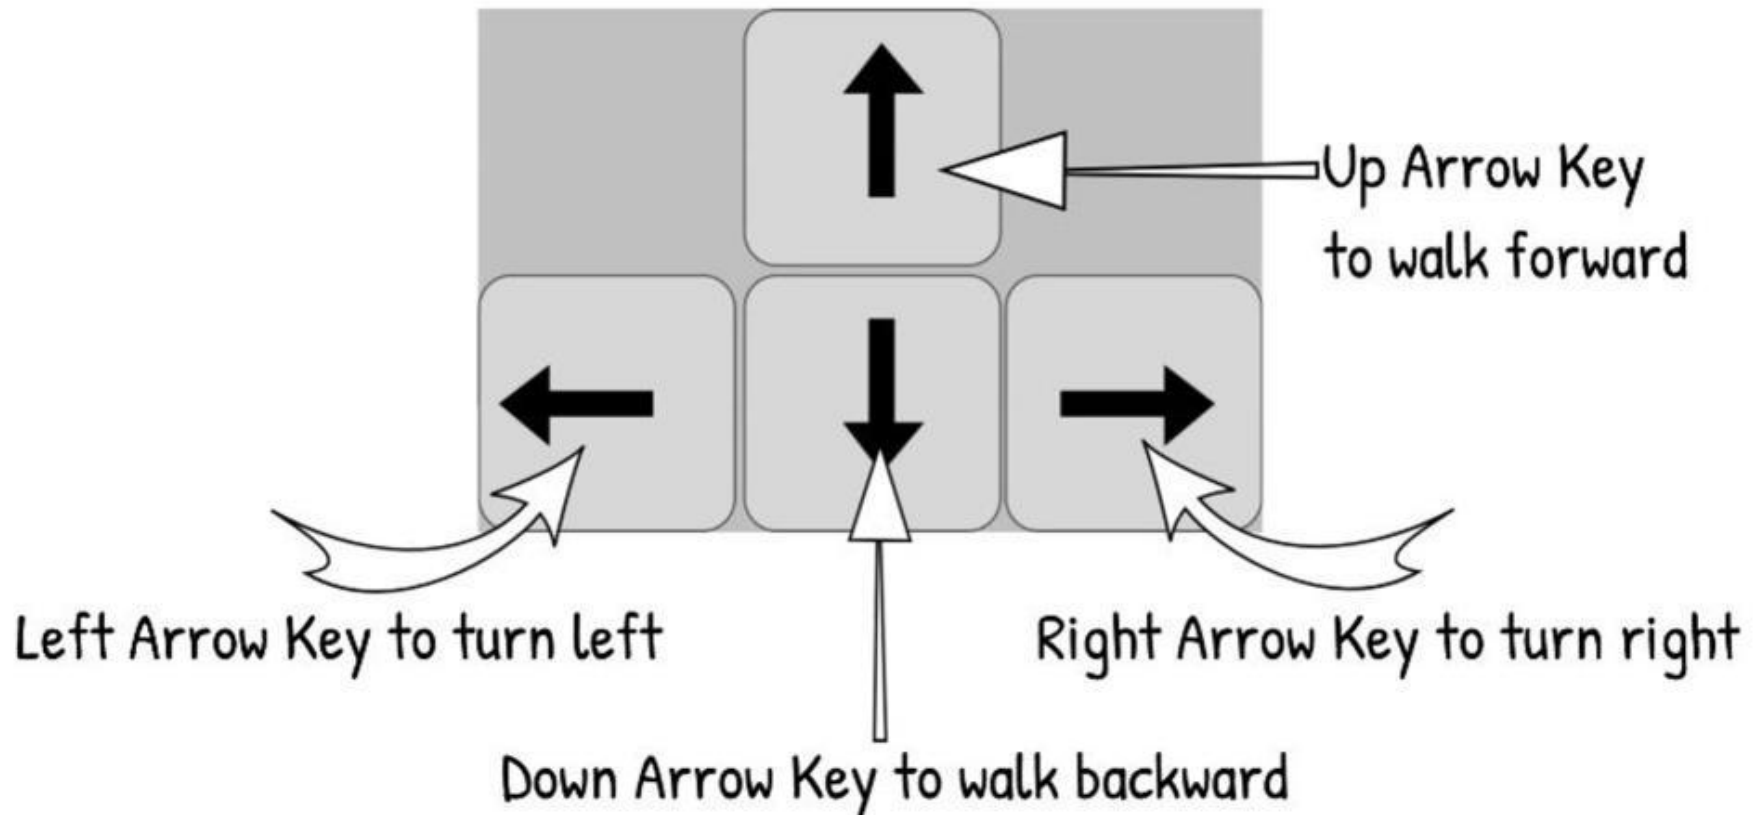

You only need a few keys to move.

The Arrow Keys

Page Up and Page Down Keys

Using the Arrow Keys

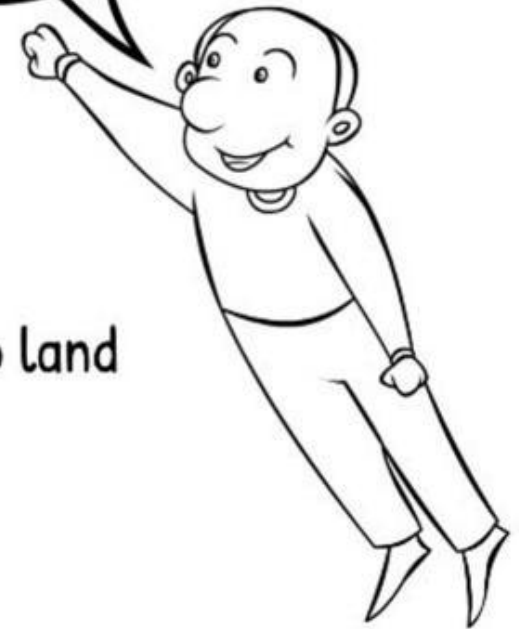

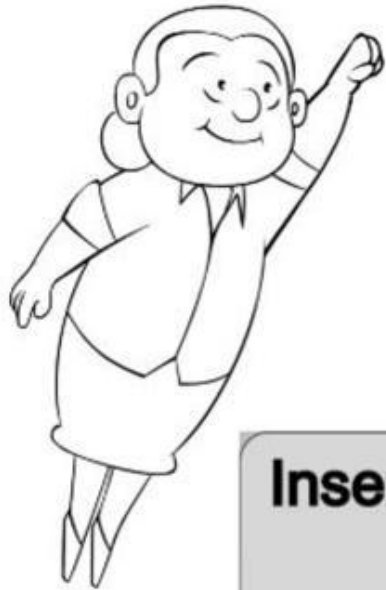

And the best thing:

Press Page Up to jump
or hold Page Up to fly up

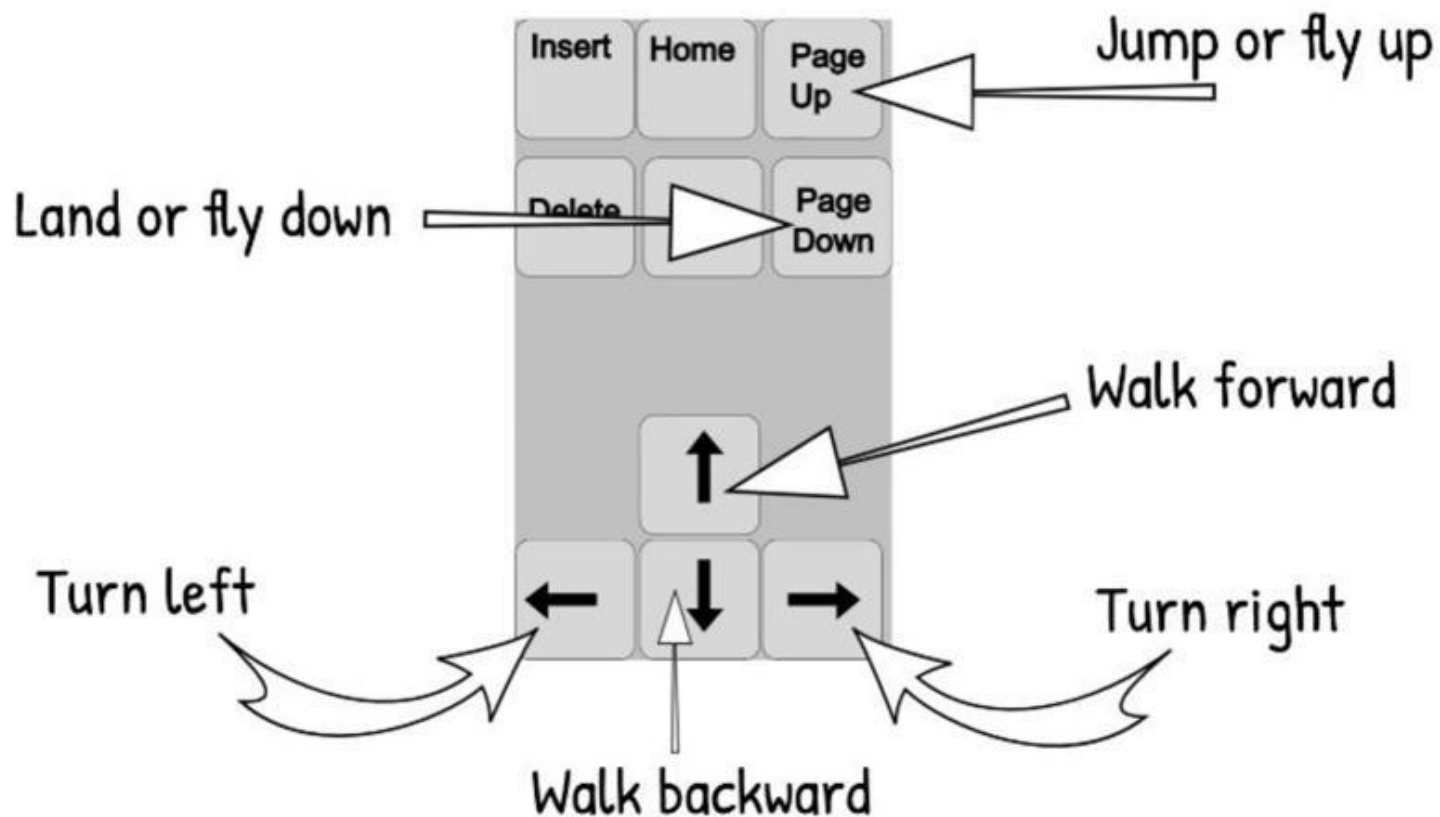

You can fly!

Page Down to land
or fly down

And here all the keys again:

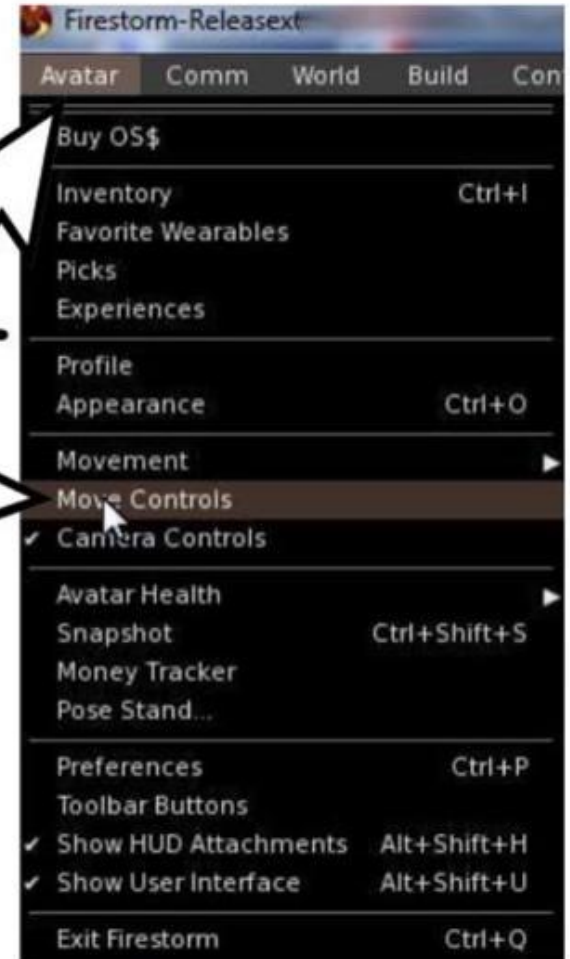

Method 2: Movement Controls

Go to the menu at the top left and open the "Avatar" menu.

Click Avatar

Click Move Controls

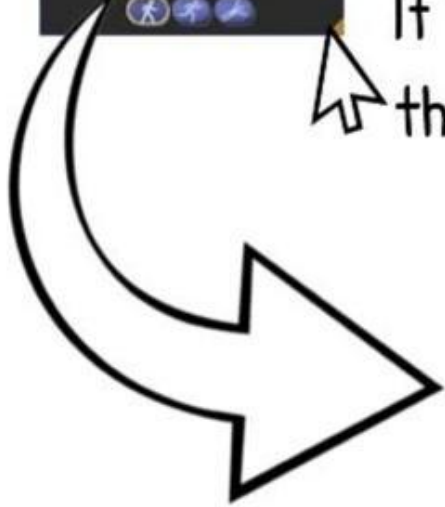

And this little control pops up!

Sometimes the Movement tool will open at the upper left.

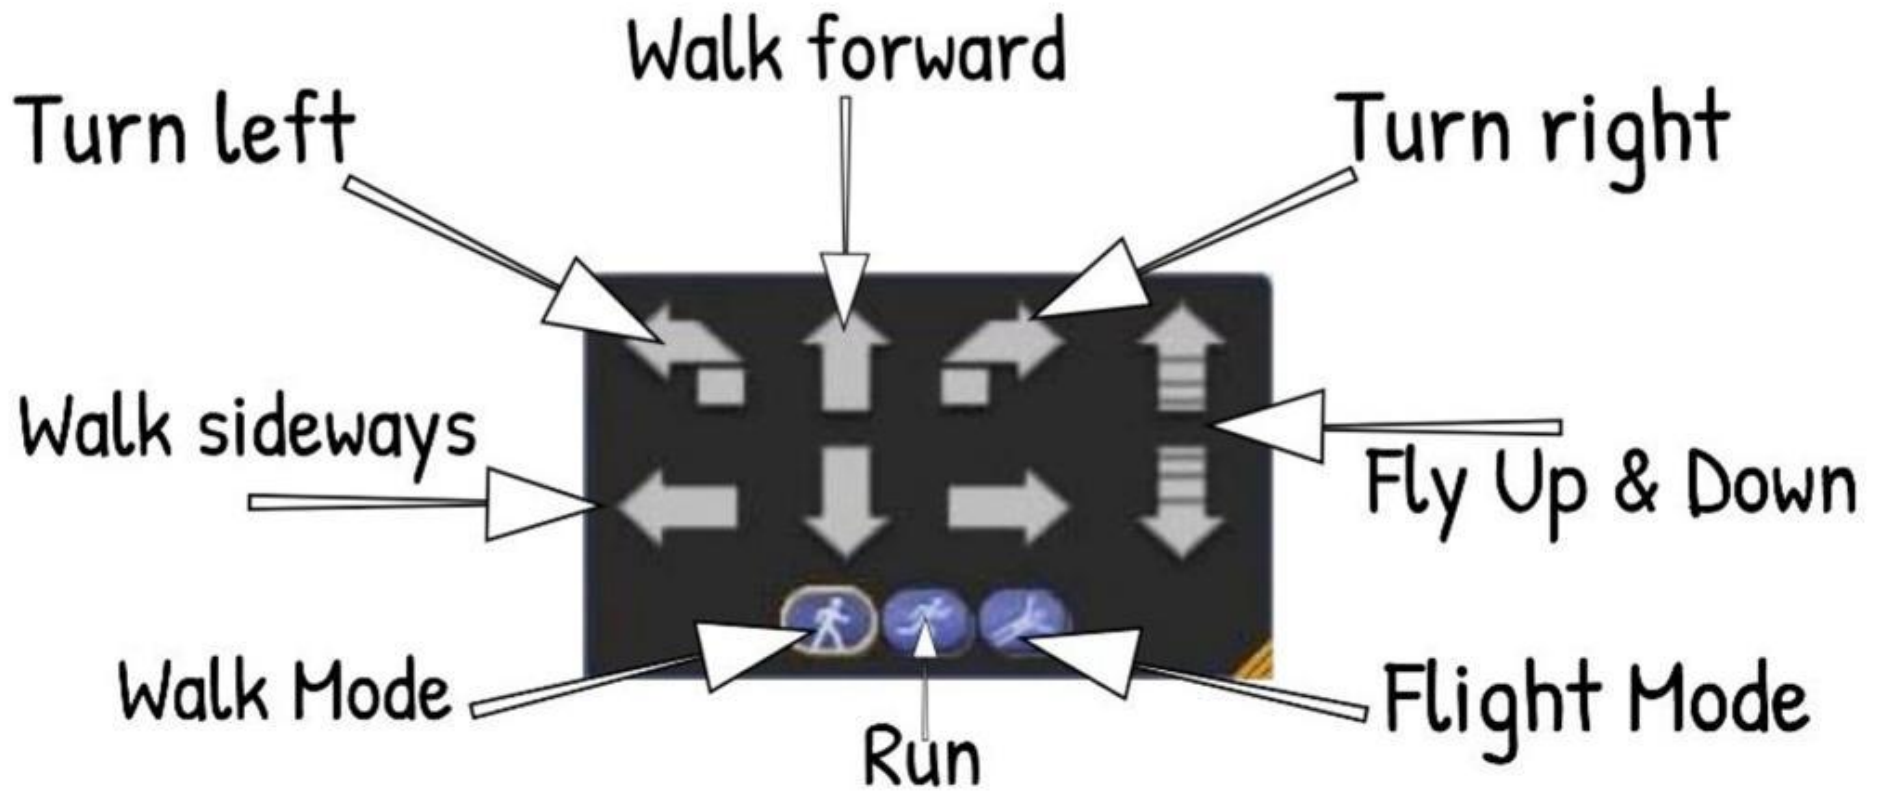

If it is too small simply resize it by dragging the lower right corner of the tool.

Drag here to resize

Click here to drag the tool window around

Now you can click the tool with your mouse and control your movement easily.

Let's take some notes:

Up arrow --> Walk forward

Down arrow --> Walk backward

Left arrow --> Turn left

Right arrow --> Turn right

Press Page Up --> Jump or hold Page Up to fly up

Page Down --> Land or fly down

or

Click <<Avatar>> in the menu

Then click <<Move Controls>> to get the little Movement tool

*Now stop the video
and write it down :-)*
